

## **Chautauqua Rails to Trails Association Report for the April 28, 2015 EPTA Meeting**

The Trail Association has been working with three Boy Scouts who are looking to complete their Eagle Scout projects on the rail-trail.

- One project is to install mileage markers on the trail
- Another is to assemble and install a donated swing and picnic table on the trail.
- The third is to determine why we had a washout on the trail, fix the cause and repair the washout.

If we get all three done, that will be the 8th, 9th and 10th projects leading to Eagle Scout rank performed on the rail-trail.

April 18, 2015, The Trail Association will host a 3-mile hike celebrating Earth Day. There is hope to have a local reporter along to provide more community visibility. In addition, approximately 25 students from SUNY Fredonia (and instructors) are expected to participate in the event. The Trail Association hopes to encourage a younger constituency.
