

Oil City Trail Updates:

1. Signage is being placed for the Justus Park Trailhead. We received a Trail Town grant for a bike fix-it station and five bike racks from the Progress Fund.
2. The City submitted a grant for the engineering and design of the Wye Bridge Trail. Won't hear until September/October about that.
3. Still waiting on the final draft of the Marina Master Site Plan.
4. The trail system is being incorporated into the City's community-wide Strategic Plan. That plan should be completed by the end of the year.
