

Update on the Erie County Parks, Trails and Recreation Plan.

After initial outreach and interviews with our 38 municipalities, the feedback and input was analyzed and compiled into four focus topics including:

1. Promote Health & Equity
2. Communications
3. Setting County-Wide Priorities
4. Funding Support

As the next step in the planning process, a public survey was drafted to address areas within each of the focus topics, to be conducted during a series of countywide public outreach events this summer. The survey is also available online on the Plan website at: www.ErieCountyPAOutdoors.org.

Next steps will include interviews with key stakeholders. Additional data from the survey results will be analyzed and utilized to create the Action Plan, which will become the marching orders for the overall Parks plan.
