# Join Us!

## The Western Pennsylvania Environmental Awards

recognize and honor outstanding accomplishments in various environmental initiatives throughout the Western Pennsylvania region. Since 2003, the Western Pennsylvania Environmental Awards have recognized over 100 individuals, organizations, and businesses for their efforts to protect and enhance our environment.

Proceeds generated from the dinner and auction will support the important work being done by PEC locally and across the state. Whether it is reforestation of formerly mined lands, working with municipalities to help them as they address stormwater management, providing support and guidance to trail groups across the Commonwealth, or taking on critical policy issues in Harrisburg – your support makes our work possible.
