- The Committee continues to work on drafting the roles and responsibilities of Board Directors. Samples of this type of document have been sought for review, but are still interested in others if any of Board Members have any they would like to share. Once a satisfactory document is drafted by the the Committee it will be provided to the Board of Directors for review and discussion.
- The Committee has agreed to develop or find a mechanism to track the status of the implementing the key issues in the strategic plan. This will assist in determining what has been accomplished and what the next steps are to succeed in full implementation of the plan. This mechanism is currently being designed and should be available for internal use in the very near future.
